Re: Federal Benefit Workshop

Dear Mike,

Your professionalism and dedication was truly outstanding. Your presentation was very interesting and forced many of our members to look closely at their Financial Portfolio and plan for their future. The membership appreciated your one-on-one meetings with your team. This offered the membership personal mentorship and direction to plan their future.

The feedback from the Chapter was superb. The 84 participants had nothing but good things to say about the workshop. They especially liked the fact that your information was up to date and pertained to them. They valued the information about Long Term Care options.

We truly appreciate your support and flexibility to work with our members on their future. I will continue to pass on to other organizations the great information and interaction you shared with our Chapter.

Sincerely,

MICHAEL H. GREENBERG, CDFM-A
President
