Re: Federal Benefit Workshop

Dear Mike,

On behalf of the Federally Employed Women (FEW) Tinker Chapter, we would like to thank BSA for the great workshop provided by you and your staff presented to our chapter on 26 Jun 07. The information presented will be beneficial to all whom will retire from the federal government.

We received positive feedback from both CSRS and FERS employees. The workshop provided great information on TSP, Risk Management, FEGLI and so much more. Of the 200 + people who attended the luncheon, 100 took advantage of arranging for individual financial profiles on the spot, and I understand we've had several contact you directly since the seminar.

You provided all great handout which can be used when planning our retirement, also received positive input from all whom you provided a free retirement analysis. While the seminar was insightful, the personal one-on-one you offered our membership deemed the most valuable by our members.

Once again, thanks for the great presentation and look forward to and your company providing another workshop in the year future.

Sincerely,

BEVERLY S. JONES
Chapter President
